# **The Development and Resolution of a Crisis: Crisis Theory**

**Monday, January 8, 2018 6-8 pm  
BHSU-Rapid City Campus**

Stephanie Dixon from Front Porch Coalition will explain the mapping technique to demonstrate how a crisis reduces coping for someone. Participants will be more able to empathize with those in the community who are affected by suicide. This module establishes the fact that suicide is the most predictable form of sudden and traumatic loss a community will routinely experience. CEs are pending. Please RSVP to [lane.madsen@gmail.com](mailto:lane.madsen@gmail.com)

The background features a sunburst pattern of teal and purple rays emanating from a central point. The top half is teal, and the bottom half is purple. The text is overlaid on this pattern.
